EXPERIENCE

Product Manager Intern - Brands Platform | *Amplitude, Figma, Linear, Claude*

May 2026 – Present

Beacons AI (YC S19)

San Francisco, CA

- Owned 0 to 1 product strategy and delivery of AI influencer campaign platform, sourcing from 10M-creator database. Drove major product decisions across engineering, GTM, sales. Shipped 45 changes in 4 weeks.
- Boosted creator-match precision from 10% to 90% at 6x speed through extensive dogfooding and 50-scenario eval suite; optimized content relevance, conversion potential, audience fit; demoed at NY Tech Week; converted brands.

Product Manager Intern | *Figma, Framer, Claude Design, MCP, Google Analytics*

Jan. 2026 – May 2026

Coldreach (YC W23)

San Francisco, CA (Remote)

- Led full product repositioning of end-to-end research-driven AI SDR product, leading a cross-functional team of 8; spearheaded SEO/GEO-optimized website overhaul; lifted organic search by 230% and views by 314% in 8 weeks.
- Surfaced 20+ UX friction points and shipped 3 product features including AI assistant entry point (60% increased adoption) and data-heavy campaign overview page; cut task completion time by 40%.

Product Manager Intern - Creators Platform | *Figma, Notion, Claude*

Oct. 2025 – Dec. 2025

Beacons AI (YC S19)

San Francisco, CA (Remote)

- Owned end-to-end AI product strategy for brand-deal workflows for 10M+ users. Worked directly with CTO; drove discovery to delivery, proposed 2 new product features - now major revenue generators with 50k weekly signups.
- Conducted 20+ user interviews with top creators (1M+ followers) to map friction across 6-stage brand-deal lifecycle; synthesized findings alongside 5-competitor teardown into data-backed PRDs directly shaping product roadmap.

Co-founder | *Figma, Lovable*

Jan. 2026 – Present

NAVA

Champaign, IL

- Co-founded NAVA as Chief Product Officer. Built a B2B product intelligence platform that converts UX friction into prioritized, actionable product changes; owned product vision, architecture, and MVP build end-to-end.
- Conducted customer discovery interviews with startup founders and CEOs. Engaged investors at a16z and YC to validate problem-market fit; synthesized direct market signal into iterative roadmap and positioning decisions.

LEADERSHIP AND PROJECTS

Vice President, Project Success | *Figma, Excel, PowerPoint*

Sep. 2025 – Present

Product Space UIUC

Champaign, IL

- Lead 100+ members in 16 cross-functional project teams. Executed across GTM strategy, UX research, competitive positioning, user research, growth and monetization, product-market fit validation, SEO optimization, and more.
- Selected through a 6%-acceptance fellowship. Led team on a 12-week client engagement. Ran weekly client calls, wrote 9 workstreams, translated ambiguous client needs into scoped product decisions, and shipped a final MVP.

Senior Technical Consultant | *React, FastAPI, RAG, Git, Supabase, PostgreSQL*

Sep. 2025 – Present

Champaign-Urbana Business and Engineering Consulting

Champaign, IL

- Shipped full-stack AI system (embeddings + RAG) for B2B company connecting musicians with nonprofit events.
- Drove growth by optimizing SEO (+54% mobile, +52% desktop). Built discovery algorithm that sourced 5,000 Spotify artists based on popularity and geography. Developed automated outreach strategy (reached 250 artists).

Product Designer → Product Manager | *Figma, Git*

Sep. 2025 – Present

Hack4Impact

Champaign, IL

- Designed and launched end-to-end application supporting an underresourced language group (Q'anjob'al speakers) in essential daily tasks. Collaborated cross-functionally with engineers and community stakeholders.
- Defined core product features (e.g. text-to-speech, video resources, job board). Balanced tradeoffs to support low literacy, accessibility needs, and limited tech familiarity. Delivered 50 high-fidelity mobile and desktop screens.
